

R&D Project Manager (m/w/d)

COATEMA Coating Machinery GmbH designs and manufactures equipment for coating, printing and laminating, both for roll-to-roll applications for web-shaped substrates and for piece goods coating. As a globally active company and part of the ATH Group, COATEMA has a worldwide sales network and supplies all growth centres with its coating, printing and laminating equipment. With over 10 different coating lines, Coatema has one of the largest R&D centres for coating technology, where we develop optimal solutions for our customers. We are working in funded R&D projects since 2008 and here we generate the ideas, know how and solutions for Coatema and our customers to come.

Your tasks:

- Finding partners/coordinators to R&D goals of Coatema
- Personnel and budget planning for funded R&D projects
- Networking with German and international companies and R&D institutes/universities
- Active management and reporting of the projects you are responsible for
- Participate in brokerage events
- Presentation at project consortium meetings
- Managing at least two funded projects parallel
- Travel in Europe for project meetings and conferences
- Contribute to the research strategy of Coatema
- Find new R&D topics for Coatema and the deep tech markets for the future of our company

Your profile:

- BSc, MSc or PhD in (Applied) Physics, Chemistry, Mechanical Engineering or other relevant discipline
- Experience with contribution to writing funded project – mainly German (BmbF, BMWi) and European Horizon projects
- Familiar with participating in funded projects
- Hands-on mentality
- Interest and/or experience to manage funded projects
- Good communication skills
- Good written and verbal skills in both German and English language
- Interest and commitment to the „next thing“

We offer:

- A dynamic team
- Open and direct communication
- Flat organisation
- Personal development possibilities
- Translation of your skills into technology 2 market
- Technological versatility of Coatema with themes like Fuel cell, Hydrogen technology, printed electronics, batteries and more deep tech
- Job bike with employer contribution
- Employee discounts
- Allowance for company pension
